- Breweries
- Pharmaceutical
- Food Processing
- Beverage
- Inks, Dyes and Coloring
- Cosmetics
- Soap/Detergent
- Flavoring

Designed for sanitary applications in chemical, industrial, water treatment, pharmaceutical and food/beverage industries. FDA compliant polished and bead blasted 316L stainless steel surfaces. Tri-clamp inlets, optional T-handles, and autoclave-safe wetted components provide for easy cleaning.

All SENTRY dampeners use pressure bodies made in the USA to ensure quality. Prior to shipment, each and every dampener is factory pressure tested to assure proper function and leak-free operation.
